- Please make sure, when you call to set up your appointments, that you ask if the doctor takes your insurance, if they bill them and what their fee is. It is hard for us to keep track of all their policies as they do change from time to time.
- These are a few of the physicians that we have worked with. You are not obligated to go to just these. If you know of someone else, you may see them. Please feel free to call our office with any questions.
